

NV PASSENGER VAN REAR FLOOR PROTECTION

FLEETGUARD offers a simple, easy to install, hard-wearing protection package for the Nissan NV Passenger Van rear cargo area. When more luggage room, an easy to clean cargo area, or a more durable surface texture is needed, FLEETGUARD has what it takes.

- LIGHTWEIGHT & DURABLE
- EASY TO CLEAN
- UNIQUE DESIGN

FLEETGUARD's **Rear Floor Protection** package includes a completely unique HD UltraFloor specifically fitted for the passenger van, made of extremely durable HDPE plastic, and a custom bent Protecta Sill package to protect the outer edge of the flooring, and facilitate easy loading of cargo and luggage.

DuraTherm Wall Liners

NV200

FLEETGUARD DuraTherm is a high quality plastic laminated sheet, consisting of a central fluted plastic core, giving the benefit of some flexibility, with an HDPE outer skin, giving the liner strength and ease of maintenance.

DuraTherm Wall Liners are precisely cut with holes to correspond with factory fixing points in the Nissan NV200, and come with simple to use Nylon push in rivets.

DuraTherm is available in white or grey.
