

# FUEL TAP KITS

## Tap Into Your Vehicle's Potential With a Generator Fuel Tap Kit From Transfer Flow.

## Our Generator Fuel Tap Kits Get the Job Done!

Many carpet cleaning companies in the US and Canada use our generator fuel tap kits to fuel their cleaning equipment. These kits draw fuel from the OEM fuel tank and/or OEM fuel fill assembly, for the purpose of fueling on-board generators and small engines such as those found on carpet cleaning vans.

Transfer Flow generator fuel tap kit for the 2011 Nissan van meets current California emissions standards and comes with a CARB Executive Order making it legal for gasoline engines.

Our generator fuel tap kits power onboard equipment such as those found on carper cleaning vehicles.

### NISSAN VAN

Vehicle	Type	Model Year	Generator	Location	Tank Size	Part Number	Price
Nissan	Van	2011	Carbureted	Midship	28 Gallon	020-01-15305	\$149.50
