

NV200 COMPACT VAN INTERIOR CARGO PACKAGE

UTILIMASTER FLEET SOLUTIONS

UTILIMASTER FLEET SOLUTIONS

Utilimaster has worked with the nation's largest fleets for over 35 years to develop innovative vehicles and aftermarket solutions that improve safety, increase productivity, and save money.

Developed by Utilimaster's experienced engineers, the innovative **Interior Cargo Package** is designed for use by anyone who operates a Nissan NV200 compact cargo van. This package optimizes the cargo area by offering two fold-up shelves and a full-extension drawer. The flexibility of the shelving allows for oversized packages to easily fit in the drawer. The drawer extension feature ensures convenient cargo access during loading and unloading. Easy to install by your technicians or at your facilities by Utilimaster's factory-trained service specialists, the Utilimaster Interior Cargo Package is a simple way to optimize your cargo capacity.

Utilimaster's Fleet Solutions team is dedicated to providing innovative solutions to enhance fleet vehicles. Contact Utilimaster today to understand our approach to improving your fleet's safety, efficiency, productivity and overall costs.
